(UNAUDITED – Prepared by Management)

REVIEW OF INTERIM FINANCIAL STATEMENTS

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the interim financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying unaudited interim financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of the comparative figures in these financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants for a review of interim financial statements by an entity's auditor.

NAPIER ENVIRONMENTAL TECHNOLOGIES INC.
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2007
(UNAUDITED – Prepared by Management)

1. CONTINUING OPERATIONS

The Company is governed by the *Business Corporations Act* (British Columbia) and is primarily involved in the manufacture and distribution of a wide range of products created through environmentally advanced technology. These product lines include coating removal and wood restoration products.

The interim consolidated financial statements of the Company have been prepared on the basis of accounting principles applicable to a going concern. While the Company renegotiated its unsecured debt obligations and obtained additional financing in July 2005, it still has operating losses, negative working capital and shareholder's deficiency and its ability to continue as a going concern remains dependant on the continued cooperation and support of its lenders, a return to positive cash flow from operations and the successful implementation of managements' initiatives for financial stability, sales and marketing and control of fixed expenditures.

If the going concern assumption were not appropriate for these interim consolidated financial statements, adjustments would be necessary to the carrying values of assets and liabilities and the reported net income and the balance sheet classifications used.

2. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

These unaudited interim consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles for interim financial information. Accordingly, they do not include all of the footnotes and disclosures required by Canadian generally accepted accounting principles for annual financial statements.

These unaudited interim consolidated financial statements reflect the same significant accounting policies described in the Company's annual consolidated financial statements for the year ended December 31, 2006, and should be read in conjunction with these statements.

It is management's opinion that the unaudited interim consolidated financial statements reflect all adjustments (consisting of normal and recurring accruals) and reclassifications necessary to present fairly the Company's financial position, results of operations and cash flows.

The results of operations for the three month period ended June 30, 2007 are not necessarily indicative of the results for the full year.

3. RELATED PARTY TRANSACTIONS

During the year ended December 31, 2005 the Company obtained financing, described in notes 6 and 8, from companies controlled by directors and officers of the Company. Total interest accrued on these loans for the three and six months ended June 30, 2007 was \$92,966 and \$191,226 respectively.

On September 1, 2005, the Company entered into a management services agreement with I.C.T.C. Holdings Corporation (“I.C.T.C.”), a company that is controlled in common with the related parties described in the preceding paragraph. Pursuant to the agreement, the Company reimburses I.C.T.C., at their cost, for personnel expenditures incurred on the Company’s behalf. During the three and six months ended June 30, 2007, the Company incurred costs of \$45,784 and \$91,486 respectively related to the management services agreement. These transactions are in the normal course of operations.

On October 31, 2005 the Company entered into a sublease agreement whereby half of the Company’s premises have been subleased to I.C.T.C until July 30, 2007. As a condition of this agreement, during the year ended December 31, 2005, the Company incurred \$395,413 for leasehold inducements related to I.C.T.C.’s relocation costs and costs associated with the cancellation of I.C.T.C.’s existing lease. As at June 30, 2007 the unamortized portion of these deferred leasehold improvements is \$240,349. This sublease has been extended to January 31, 2010.

Effective July 1, 2006 the Company’s chairman accepted a revised compensation agreement resulting in nominal annual compensation in return for a bonus based on the net income of the Company. This bonus is cumulative and payable at the lesser of 75% of net income or the cumulative bonus entitlement. To the extent that the bonus is not paid on an annual basis, an additional 15% will be added to it and compounded annually. No amount related to this bonus is due and accordingly there has been no accrual in these financial statements.

The Company entered into a Sales Service Agreement on February 1, 2007 with I.C.T.C. Under the terms of this agreement, I.C.T.C. accepted the transfer of certain sales staff and their respective expenses in return for a sliding scale sales fee that will be determined at the end of the year. The company accrued an estimated fee payable for the three and six months ended June 30, 2007 of \$26,789 and \$78,789 respectively, based on the year to date sales. This accrual is included in Sales and Marketing costs.

4. INVENTORY

Inventory is comprised of:

	June 30, 2007	December 31, 2006
Raw materials	\$ 472,800	\$ 374,250
Finished goods	137,672	233,000
	\$ 610,472	\$ 607,250

NAPIER ENVIRONMENTAL TECHNOLOGIES INC.
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2007
(UNAUDITED – Prepared by Management)

Finished goods inventory contains an allocation of fixed operating costs based on the standard costing method of accounting for inventory and determination of cost of sales. Unallocated fixed operating costs are charged to cost of sales as they occur. As a result, the quarterly gross profit and related gross profit percentage, as it relates to sales, will vary based on the level of production in that quarter. Therefore, due to the cyclical nature of the Company's business, this results in lower gross margins during periods where production is lower.

5. PROPERTY, PLANT AND EQUIPMENT

	\$ 1,524,852	\$ 1,245,715	\$ 279,137	\$ 326,596

6. LOANS PAYABLE

Loans payable consist of two loan facilities, each to a maximum of \$1,750,000 from each of 6408753 Canada Corporation and 6408788 Canada Corp. (see Note 3) secured as outlined in Note 8. The term of each loan is 364 days and is renewable for successive 364-day terms by giving notice to the lenders and obtaining their consent, at least 90 days prior to the expiry. Interest is payable on the last day of each month at a rate of prime plus 2%.

These loans are subject to the following margins: (i) 50% of the aggregate amount of eligible inventory minus the aggregate amount of accounts payable plus (ii) 75% of the aggregate amount of eligible accounts receivable.

At the time of advancement and at June 30, 2007, the lenders and the Company acknowledge that the Company did not meet the margin requirements required under these loans. Strict compliance was waived by the lender in connection with the period ended June 30, 2007.

7. LONG TERM DEBT

Long term debt consists of two term loans, each in the amount of \$450,000 (2006: \$750,000) payable to 6408753 Canada Corporation and 6408788 Canada Corp. (see Note 3). The term of each loan is five years and interest is payable monthly at a rate of prime plus 2%. Annual principal repayments of \$300,000 in aggregate are required on each of the anniversary dates of the loans until maturity on July 14, 2010. As a condition of these loans, share purchase warrants were issued to the lenders on August 30, 2005 (Note 9). Long term debt and the loans payable (Note 6) are secured by a general security agreement and an assignment of general insurance.

c) Stock options

Under the terms of the Company's incentive stock option plan, options are granted to employees and directors upon approval by the Board of Directors and the exercise price of each option is determined by reference to the market price of the Company's stock. Options are normally exercisable within 5 years from the date of grant or an alternate period as determined by the Board and within 30 days of termination of employment. Options normally vest over a period of five years.
