

Napier Expands U.S. Distribution With Blish-Mize

Napier Environmental Technologies Inc. is pleased to announce that Blish-Mize has agreed to distribute BIO-WASH® and RemovAll™ brand products. The opening order included the complete line of deck refurbishment products, as well as the specialty items Rinse or Peel, Organic Strip, Waste Paint Hardener and Graffiti Remover. Blish-Mize is a private company founded in 1871 that originally started selling axle grease and horseshoes. Today, they have evolved into a full service hardware and paint sundry distributor, servicing the regional home improvement and paint store industry. Blish-Mize utilizes state of the art marketing and retail programs to enhance the efforts of the market sales representatives. With distribution centers located in Kansas, Colorado, and Texas they cover over 12 states from the heart of the Midwest, to the Rockies, and the great southwest.

The relationship with Blish-Mize fills a very strategic role for Napier, as their distribution territory is about 90% untapped market potential and was a huge hole in Napier's USA coverage. The area historically has a significant emphasis on high-end wood design throughout the ranch lands and the Bio-Wash line should perform well in this market particularly with the support of one of the largest players in the territory.

Product will be stocked and shipped out of the Blish-Mize warehouse located in Denver, Colorado utilizing the New Item Express Program. With this program, dealers automatically receive up to six new item samples each month. These items arrive each month with a special tag identifying them as New Item Express items to be opened at once.

Forward Looking Statements: This release and referenced materials contain forward looking statements that are subject to a number of known and unknown risks, uncertainties and other factors that may cause actual results to differ materially from those anticipated in our forward looking statements. Factors that could cause actual results to differ materially include: rapid technological and/or market changes in the industry; the ability to maintain and grow successful third party and customer relationships, to improve current products and develop new products, to adequately protect the company's proprietary rights and other factors described in the company's regulatory filings. Although we believe the expectations reflected in our forward looking statements are reasonable, individual results may vary, and we cannot guarantee future results, levels of activity, performance or achievements.
