

NEWS ANNOUNCEMENT

FOR IMMEDIATE RELEASE

Broad Range of Napier Products Adopted into International Distribution

Vancouver, British Columbia, Canada.....

April 30, 2003

“Napier Environmental Technologies Inc. is pleased to announce that under terms of an agreement, Napier will supply a broad range of products for distribution and sale through 5 divisions of one of the world’s leading suppliers to the paint and coatings industry. Napier has agreed to keep terms of this “private label” agreement confidential but can report the first 6000 gallons of product left our Delta, BC, plant in April. Program will be launched in stages over the next few months.

We anticipate our sales under this agreement will grow steadily over the next few years as these products gain access to an extensive North American and International sales and distribution network. In addition this agreement will contribute to an ongoing appreciation and acceptance of environmentally friendly products in the paint stripping and wood restoration industry worldwide.”

Forward Looking Statements:

This release and referenced materials contain forward looking statements that are subject to a number of known and unknown risks, uncertainties and other factors that may cause actual results to differ materially from those anticipated in our forward looking statements. Factors that could cause actual results to differ materially include: rapid technological and/or market changes in the industry; the ability to maintain and grow successful third party and customer relationships, to improve current products and develop new products, to adequately protect the company’s proprietary rights and other factors described in the company’s regulatory filings. Although we believe the expectations reflected in our forward looking statements are reasonable, individual results may vary, and we cannot guarantee future results, levels of activity, performance or achievements.
