News Release

Napier Expands U.S. Distribution With M.A.B. Paints

Napier Environmental Technologies Inc. is pleased to announce that M.A. Bruder & Sons, Inc., (M.A.B Paints) has agreed to distribute a group of 13 products selected from both BioWash and RemovAll(tm) brands. After the initial marketing introduction M.A.B immediately placed Napier's Removall 400 Graffiti & Overspray Remover and the Bio-Wash Waste Paint Hardener in some 230 company owned stores and dealer stores.

M.A.B Paint's is one of the largest privately owned paint companies in the United States. Founded in 1899 and now in its 104th year, M.A.B. enjoys a legacy built by the hard work and determination of four generations of the Bruder family. M.A.B Paints offers a complete line of residential, commercial and industrial coatings systems that fill almost every need. With distribution centers and manufacturing facilities located in Terre Haute Indiana, Philadelphia Pennsylvania, Newark Delaware and Orlando Florida, they cover over 17 states from the heart of the Midwest, to the majority of the Eastern Seaboard.

The relationship with M.A.B fills a strategic role for Napier, as their area of distribution is currently untapped and has previously been a major gap in Napier's USA coverage. Due to the large contractor base of the M.A.B's company owned stores, the follow up marketing campaign will focus into the higher volume and margin business of the professional / contractor market. M.A.B is represented in all major markets, with superior strength in the Philadelphia and New York / New Jersey markets. The area historically has a significant emphasis on architectural restoration and graffiti removal and is highly prospective for the Napier industrial RemovAll(tm) product line.

Forward Looking Statements:

This release contains forward looking statements that are subject to a number of known and unknown risks, uncertainties and other factors that may cause actual results to differ materially from those anticipated in our forward looking statements. Factors that could cause actual results to differ materially include: rapid technological and/or market changes in the industry; the ability to maintain and grow successful third party and customer relationships, to improve current products and develop new products, to adequately protect the company's proprietary rights and other factors described in the company's regulatory filings. Although we believe the expectations reflected in our forward looking statements are reasonable, individual results may vary, and we cannot guarantee future results, levels of activity, performance or achievements.
